1. SPUDM 2025 update. See you in Lucca!

The 2025 **Subjective Probability, Utility, and Decision Making (SPUDM)** meeting will be held at the [IMT School for Advanced Studies Lucca](#) in Italy, from **August 31st to September 4th, 2025**. The conference is organized by **Sibilla Di Guida and her team** and will take place **in person**.

Lucca, a charming historical town in Tuscany, is located near Florence and Pisa and is easily accessible from both cities. Surrounded by Renaissance-era city walls, Lucca offers a beautiful blend of history, culture, and Italian charm—though you may want to save your sightseeing for after the sessions!

What to expect at SPUDM 2025?

An exciting scientific program featuring inspiring keynote speakers, dynamic symposia, and a wide array of engaging presentations across the decision-making field. And of course, don't miss the lively social events that will offer ample opportunities to reconnect with colleagues and make new connections.

Have you already booked your travel and accommodation?

Lucca is a popular summer destination, so it's a good idea to arrange your travel and accommodation early.

We look forward to seeing you there!

2. EADM Election update

Every two years EADM members get a chance to contribute to our society by nominating themselves (or others) to serve on EADM's board. The board virtually meets 4-6 times a year and handles EADM's on-going matters. This includes setting up commissions for SPUDM, EADM Awards, and so on. This year, we innovated by running the elections on LimeSurvey. This proved a success, 123 members voted, which is a significant increase compared with previous years (in which 30-40 voted).

[Olga Kostopoulou](#) was elected as Member at Large and [Joshua Weller](#) was elected as President elect. They will join the board during the coming SPUDM.

Congratulations Olga and Joshua!

3. SJDM/EADM virtual symposium

The European Association for Decision Making (EADM) is represented in the organizing committee of the Joint SJDM/EADM Virtual Symposium series. This successful initiative brings together 100-200 members from both societies several times per year for engaging discussions on key topics in decision making research. We are delighted to announce that [Dionysius Ang](#) (Leeds University) and [Margarita Leib](#) (Tilburg University) will be joining [Elena Reutskaja](#) (University of Navarra) and the two SJDM representatives [Stephen Broomell](#) (Purdue University), and [Uriel Haran](#) (Ben-Gurion University of the Negev) in organizing this event.

Thank you, Dion and Margarita!

4. Explore the Science of Judgment and Decision-Making.

Judgment and Decision Making is the official journal of the [Society for Judgment and Decision Making \(SJDM\)](#) and the [European Association for Decision Making \(EADM\)](#)—and your source for the latest research on how people think, choose, and act, for better or worse.

We publish sound empirical findings, novel theoretical developments and robust practical applications informed by a range of disciplines including (but not limited to) cognitive psychology and behavioral economics. This journal is the home of ambitious and cutting-edge decision research. The contributions we publish are made accessible to a broad readership.
